

**STRAFFORD LEARNING CENTER IS PLEASED TO OFFER**  
**LIFE SPACE CRISIS INTERVENTION (LSCI) TRAINING**

Life Space Crisis Intervention (LSCI) is a nationally recognized, professional training and certification program offering a road map through conflict to desired outcomes using crisis as an opportunity to teach and create positive relationships with youth. LSCI believes that the process of helping involves having the ability to listen deeply to the personal stories of children and youth and to recognize that their message is often not in their behaviors but in their underlying thoughts and feelings.

LSCI is a brain-based, trauma-informed intervention that has received international recognition for demonstrating that staff working directly with troubled kids can turn a crisis into an opportunity for insight and learning.

Certification in LSCI includes:

- Four days of training
- Real life video sequences
- Instructor-led modeling of intervention skills
- Realistic role play activities and structured small group activities
- The text: *Life Space Crisis Intervention: Talking with Students in Conflict* (Long, Wood, & Fecser; 2001)
- A comprehensive manual covering the training and techniques

Upon successful completion of the training, participants receive a Certificate of Competency in Life Space Crisis Intervention from the LSCI Institute. Up to 3 graduate credits in Special Education or Psychology can also be obtained for successful completion of the course.
