

Lion Cub's Class

Jennifer Haigh

jhaigh@orcsd.org 389-3638

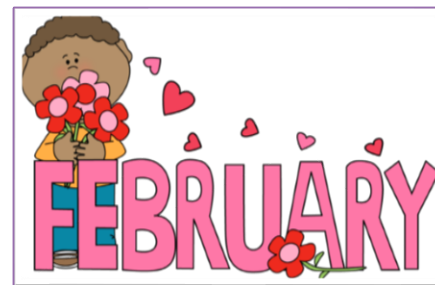

Last month we enjoyed learning about arctic animals and all things snow! This month, we will use a space theme to continue learning early literacy and math skills. In the classroom, we've begun tracing/writing our name in uppercase letters. The kids are doing a wonderful job with it so far!

The kids will practice social skills while playing with our spaceship tent, a sensory table filled with space rocks, a lite brite, and a pretend space station with astronauts!

Valentine's Day Party

On February 14th, please send children in with valentines (we have 9 children) that only have your child's name on it. We will have a special snack and will take turns delivering our valentine's to our friend's "mailboxes."

If children forget their valentine's or if you're unable to get/make some, we will have some extra ones in the classroom!

Important Dates

February 14

Valentine's Day Party

February 26 – March 2

February Break

Thank You!

Thank you all for your donations of tissues and wipes, they're greatly appreciated!

If you have an empty shoebox that you're willing to part with, we'd love to have it for activities that we'll be doing in March!
